

Name _____ Date _____

5th Grade Science Quiz #13

1. Label the ocean features.

- a. _____
- b. _____
- c. _____
- d. _____

Bonus:
Put a red X on the abyssal plain

2. A molecule of water is...

- a. an element
- b. a compound
- c. a solution
- d. a mixture

SAMPLE

3. Use a blue crayon to show the flow of the Gulf Stream.

4. My grandma lives in Virginia Beach. We get to visit her every summer. My favorite thing to do is to go swimming. Sometimes we get to jump off of the pier, but we can only do that when the water is deep enough. Grandma says that the water level is affected by the (a)_____. That seems really weird since it is so far away. I guess (b)_____ is a really strong force.

5. Analogies:

a. **revolution : seasons**
rotation : _____

b. **plants : oxygen**
people : _____

c. **pounds : ounces**
kilograms : _____

d. **shallow : continental shelf**
deep : _____
